On your Skin

We care about your health, as well as your safety.

For this reason, the inside of your helmet is produced in Italy with certified fabrics.

Indeed, it is now established that the fabrics inside the helmet, in the presence of aromatic amines and other harmful substances, prohibited in Europe, but as verified, widely used in other Asian countries, can give allergies, eczema and release highly toxic and carcinogenic substances into the body.

For this reason, all the tissues of our helmets are produced in Italy and are tested and CERTIFIED by the OEKO-TEX laboratory in Zurich CH

STANDARD 100 by OEKO-TEX ® free from harmful substances.
